Project

SkillScan – Resume Analyzer System"Project :

- It is a web-based Resume Analysis System developed to simplify this process.
- The project is developed using the MERN Stack (MongoDB, Express.js, React.js, and Node.js), which provides a fast, responsive, and scalable web application.
- SkillScan focuses on resume evaluation rather than resume creation. It assists students, fresh graduates, and job seekers in understanding the strengths and weaknesses of their resumes before applying for jobs.
